

## Cover letter

## How it looks in reality

Hi. I am a watercolor and digital illustrator.

(I don't have 100 hours, because I work with fixed prices, due to specifics of creating illustrations, especially watercolors. However, I'm working on Upwork since 2016 and I have a lot of completed projects, small and large.)

I think, "colorful and joyful" - it's... [more](#)

Hi. I am a watercolor and digital illustrator.

(I don't have 100 hours, because I work with fixed prices, due to specifics of creating illustrations, especially watercolors. However, I'm working on Upwork since 2016 and I have a lot of completed projects, small and large.)

I think, "colorful and joyful" - it's exactly about my style. Please take a look at my portfolio. I've also selected various examples of my illustrations that display my skills, in attachment.

I have own style, but first of all I always follow graphical style and other visual requirements by client. I can draw on any theme, both watercolor and digital, simple and detailed. Also, I'm very experienced in graphic design, if you need to prepare illustrations for printing, make a layout or cover.

At start of work I can make a moodboard to help us outline direction, style, colors, etc. Than I always make sketches, enough you get exactly the result you want. We can begin with one illustration, or with a draft of storyboard for the whole book, to outline the composition, scenes, and to figure out what moments you want to see in the illustrations.

About me personally - I love to draw for children, I am very responsible. And I take each illustration very personally - I'm happy when people enjoy my art. So, you can be sure you will get inspiring and beautiful illustrations:)

I am exited to discuss the details!
